FREQUENTLY ASKED QUESTIONS

What is the advantage of having a third-party conduct surveys? Anti-Trust guidelines counsel organizations to use a third party for conducting Compensation, Benefits & Business Trends Surveys because there are no vested interests — the focus is on reporting key metrics while protecting the confidentiality of all parties. Third parties also tend to be subject experts capable of providing a larger context and comparison for important insights.

How are survey invitations sent? By mail to the designated "HR contact" within your organization.

As a member, do I have to complete the survey to get free data? Yes. However, if you choose not to participate, you can purchase the reports at a member discount.

How do I participate online? Click on the custom link provided in our mail invite or call and we'll send you a link.

Is "online" the only way to complete the survey? Online participation is encouraged, but printed options are also available. Call Stacey Bruce at 814/833-3200.

Is my data kept confidential? Yes. We only provide compensation results for jobs where four or more organizations submit data, and we only report aggregated statistics — never anything organization specific. Your submission will not be seen by anyone outside of the MBA.
